**A Message from the Commissioner of Film, Television & Creative Industries**

As the Commissioner of Film, Television & Creative Industries I am extremely pleased to be part of the Real Fun Film Festival and truly appreciate the type of programming that this event brings to the city. The engagement of our younger generation in to the screen Industries sector is core to the development of the Cultural fabric in our city. The RFFF brings events, workshops and films to our children and allows them to engage and exercise their creative side. To those of you attending for the first time "Welcome" and we look forward to another Fun and Exciting line up of films and programming this year.
